BOOKIES DISGUSTED

New Law Keeps Bettors at Benning on the Move.

ODD-LAYERS HARD TO FIND

Plungers Have Little Trouble Get- piker. Maybe he didn't remember the ting Down Wagers, but "Pikers" bookle's name. Maybe he had laid his Must Wait Until They See Red Hair or Green Necktie Before They Can could get in on the next sure thing. Some times the delay in looking up the book-

The new scheme of bookmaking necessitated by the activity of the District attorney's office put a crimp in the business at the first day of the annual meeting at the Benning race track yesterday.

Nobody was satisfied. The bookmaker himself was the most discontented of the lot. He said it wasn't he had his sheet writers and his paymascheap way of doing things. The old racegoer and plunger, of whom even Washington has a few, didn't like the new or-

The piker didn't like it a bit because he had to put up his little pile on the first available for your unsophisticated bettor. sure thing and then stand his chances with the rest of the field in getting it back in time to take a flyer at the next race. The reformer didn't think very much

That's the way it was.

Dislike Trotting Bookmaker,

For the dear American public is not accustomed to the trotting bookmaker. Your Washington bettor wants his straight. He likes to go out under the shed and see his little wager recorded on the long sheet by the fellow sitting on a be putting it up to the public at 5 to 1 on stool. Then he's sure he's going to get a the opposite side, run for his money. The trotting bookmaker may have his points, but-

Citizens' Committee Advises Electricity for Factories.

WATER POWER MAY BE USED

Denies Industries Would Mar Beauty of City-Jobbers and Shippers Report Railroads Are Trying to Improve Shipping Facilities - New Members Admitted to Association

Establishment of new industries and the improvement of the freight service out of Washington were the chief topics considered at the meeting of the directors of the Jobbers and Shippers' Association last night. The question of industries came up in

discussion of industry in Washington was "I made no statement regarding the use carried on by the members of the board Tells of Electric Motive Power,

Remarks made by Mr. Fleming upo the changes going on in the application of motive power, by means of which fac Yesterday, according to the story in views, containing statements untrue and tories were being run by electricity instead illustration of a steam plant withou smoke. He said the secret of it was that while the company must use 75-horse-power to drive their machines, they have oller-power of 125-horsepower.

In this way it was not necessary to orce the fires, and the stoking had always een accomplished without smoke. Mr. Fleming also described a firing device in peration at the power house of the Capital Traction Company, where an auto-matic stoker supplied fuel to the fires continuously without the production of smoke. Mr. Fleming said great advance had been made within the past few years along these lines, and that Washington need not be alarmed by the coming of fac ories, as they will in the future be run by electricity, by gas engines, or by smokeless furnaces, in which the gas and carbon of the coal is completely consumed

Power Wasted in Potomac. Mr. Fleming spoke briefly of the power

going to waste in the upper Potomac, and declared that in the future the power at Great Falls and Little Falls will be used in the production of electricity to drive The question of locating factories along

right out in the open, where everybody can see him. But, anyway, he has a prescribed circle, and they do say that he sticks to it.
